About Us

In the current scenario of fragmented society and dissociation with civilization, we would like to bring modern and religious education under the movement initiated by Maulana Ali Miya Nadvi who stood up for modern education with Islamic fundamentals for future generations. Maulana Ilyas (Bhatkali) carried on with the same vision to accomplish the establishment of such institutions in the hearts and minds of the ummah. He was instrumental in creating and founding institution all over India like Ali Public School, in memory of Maulana Ali Miya Nadvi. People of various backgrounds from Chiplun came together in an effort to bring modern educational and religious awareness amongst our community and joined in a team to find a way for the existence of an institution through the slogan **"Education is the means and Islamic values are our target."** Alhamdulillah

For the prosperity of education of our future generation the well-wishers of our community, religious scholars, Huffaz and businessmen laid the foundation of management committee under the banner of Falahe Daarein Education Society in the year 2012. Later on, the experts of various fields joined the management and the institute was registered under the Societies Registration Act 1860 and the Mumbai Public Trust 1950 and started a school named **'Ali Public School, Chiplun'**

Our Mission & Vision

The First ten years of a child are very crucial and important in their life, whatever they are exposed during this period has a serious and lasting effect on them in future.

It's rightly said-

'Knowledge at young age is like engraving on a stone, which is difficult to rub off' so keeping this in mind-

Ali Public School's vision is to implant strong faith with modern education and to create awareness among the society about the importance of education with Islamic values and practices.

To inculcate strong faith in Allah (S.W.T) and our Prophet (P.B.U.H.) Falahe Daarein Education Society envisions an ideal education system to enhance and develop each individual into a good human being who will serve mankind.

To implement the curriculum and pedagogy of our institute, FDES will develop among the students a deep sense of respect towards the fundamental duties, Islamic and constitutional values, bonding with our beloved country and the world.

To provide and instill among our students a deep rooted pride in being an Indian Muslim & to develop modern and Islamic knowledge filled with technological skills, values, art & culture which will promote a sense of well-being thereby reflecting a truly global citizen.

In this regard the mission of institute can be summarised within the statement, **"Learn in the name of Allah (S.W.T)"**
